Birmingham, United Kingdom

PROFILE

I'm a Software Developer, Event Organiser and Developer Evangelist with prior industry experience. I am looking for a year-long industrial placement at a friendly tech company who value personal development and would really let me utilise my technical, organisational and interpersonal skills.

I'm also a keen musician (pianist & singer), and really enjoy both performing and composing in my spare time.

EXPERIENCE

Software Developer

Majestic (Majestic SEO)

July 2016 - Sep 2016 Birmingham, UK

<https://labs.majestic.com/2016>

A 10-week placement at Majestic, developing innovative ways to represent and interpret their data. Mainly working on frontend & UX, but also working on some backend too. Predominantly HTML, CSS & JavaScript.

- Released the 2016 labs (see link) which contains the main project, a "map of the internet", as well as some smaller side-projects.
- Part of an autonomous team, and the joint-architect of a few innovative data visualisations, with the overarching brief of "showcase the data that Majestic has".

Project Lead - Ace of Spades

JaGeX Games Studio, Cambridge

June 2014 - Sep 2014 Cambridge, UK

<http://aceofspades.com>

I was contracted by JaGeX to work on a past-dormant project - creating, implementing and testing innovative solutions to various problems.

- Major fixes to Ace of Spades, which is written in Python.
- Liaising with a large, old and active game community to ensure that all updates were what the community wanted to see.

SKILLS

JavaScript

Python

Git

Haskell

Java

OCaml

HTML

CSS

LaTeX

Bash

ACHIEVEMENTS

Lead Organiser - HackTheMidlands

I founded, and headed up the organisation of a national, all-inclusive hackathon (see hackthemidlands.com).

CSS UoB President (@CSSBham)

I conceive and organise events that give students skills and experience that university may not necessarily give them.

Clarifai Developer Evangelist

I was selected as a Clarifai Champion in Autumn 2016, which is their initiative to shape upcoming developer evangelists.

Hackference 2016 Winner

Support for Amazon's Alexa AI on Pebble devices (see <https://t.co/MKtskw4tYK>).

Undergraduate Demonstrator

I am a mentor to first-year students. on their modules such as Java, AI and logic.

BCS Committee Member

I have been involved in organising talks and events.
